Libraries:	Reactjs, Redux, Recoil, Tailwind Css, Scss, D3js, Zustand, React Native
Cloud & DevOps:	Docker, EC2, S3, Git, Nginx
Database Technologies:	PostgreSQL, MongoDB, Redis, Mongoose, Prisma, GROQ
Other:	Websockets, Http/Https, Monorepo, Turborepo, SEO

## EXPERIENCE

### Frontend Developer - Toouk, Dubai, UAE

August 2024 - Present

- Built scalable, interactive web apps using React.js, Redux, and modern tech, with a focus on responsive design and performance optimization.
- Led end-to-end project development, from UI/UX design to frontend coding and backend integration, enhancing user engagement and satisfaction.

### Web Developer - Apex Software, Dubai, UAE

September 2024 - August 2025

- Designed and implemented a robust system architecture from scratch, enabling seamless aggregation of games from multiple providers while maintaining high performance and scalability.
- Developed a responsive frontend with Next.js and Tailwind, enabling seamless access to 2000+ games and improving engagement.

## PROJECT

### Naachogao - A Real Time Collaborative Music Streaming App

[naachogao](https://naachogao.com)

- Techstack: **Nextjs, Nodejs, Expressjs, PostgreSQL, Prisma, Clerk, Aceternity UI, React Bits, Socket.io, Tailwind CSS**
- Engineered a **queue-based system** where creators can host sessions and users can join, suggest, and **vote on music streams**; the **most-voted stream is played next**, enabling interactive group listening for up to **50+ concurrent users**.
- Integrated **WebSocket for real-time** updates across users, ensuring **<200ms latency** for instant feedback, synchronized playback, and a seamless collaborative experience.

### Anaira - Ecommerce App

[anaira.style](https://anaira.style)

- Techstack: **Nextjs, Sanity CMS, Clerk, S3, Tailwind CSS**
- Developed a **scalable e-commerce platform** with dynamic product management and global expansion in mind.
- Integrated Clerk for authentication, Stripe for payments, and AWS's S3 for optimized image storage.
- Enhanced performance and UI/UX using Next.js, Tailwind CSS, and Sanity for content management.

### Diamond365 - Online Gaming App

[diamond365.live](https://diamond365.live)

- Techstack: **Nextjs, Nodejs, Expressjs, PostgreSQL, Prisma, Python, Tailwind CSS**
- Designed and developed a platform offering games from different providers.
- Implemented core features using Next.js, Node.js, Express.js, PostgreSQL, Prisma, and Tailwind CSS for seamless functionality and user experience.

## EDUCATION

- Master of Computer Science** - Savitribai Phule Pune University 2022 - 2024 CGPA 8.22
- Bachelor of Computer Science** - Hemvati Nandan Bahuguna Garhwal university 2019 - 2022 CGPA 7.7
